📍 Seaford

## SUMMARY

My journey in the games industry began a few years ago at East Sussex College in Lewes, where I studied Games Development for two years and graduated with a Distinction. During this time, I developed numerous prototype projects that greatly enhanced my skills, both within Unity and through C# programming.

## EXPERIENCE

### Five Night's at Naughty's

📅 08/2023 - 10/2023 📍 East Sussex

Unity Horror Game - Group Personal Project

- Led a team in developing *Five Nights at Naughty's*, a horror game in Unity, over several months.
- As the co technical lead, I used my C# and Unity knowledge to help the team overcome development challenges.
- Managed tasks, kept the team on schedule, and ensured we completed the project on time.

### Stanley's Speedrun

📅 02/2022 - 05/2022 📍 East Sussex

Complete Game - Final Major Project Y1 ESCG

- Planned the project with a detailed design document and maintained progress through weekly write-ups for documentation purposes.
- Developed a character controller incorporating mechanics such as wall-running, sprinting, and jumping.
- Utilised version control with GitHub to manage and maintain functionality across multiple machines.

### The Failed Fantasy

📅 02/2023 - 05/2023 📍 East Sussex

Complete Game - Final Major Project Y2 ESCG

- Developed gameplay mechanics for a third-person controller, including a camera controller, movement system, and a shield throwing and retrieving system.
- Created basic enemy AI using Unity's built-in NavMeshAgent tools for pathfinding and behaviour.
- Implemented a ragdoll-on-death system, where all eliminated entities would transition into a ragdoll state.

## SKILLS

Unity Visual Studio C#

Project Planning Github

Gameplay Mechanics

## EDUCATION

UAL Level 3 Diploma in Creative Media Production and Technology

East Sussex College

📅 2021 - 2023 📍 Brighton, United Kingdom

Computer Science for Games

University of Brighton

📅 2024 - Present 📍 Lewes, United Kingdom
